## Senior Landscape Architect - 4-6 Years' Experience

Life is busy at CLOUSTON Associates with our team focused on significant public and private sector projects across NSW and the Northern Territory.

Our major built projects have recently won a number of design awards and we're looking to maintain this standard in the design development, documentation and construction phases of the next crop of exciting projects currently in early concept stages.

So we're looking for a Senior Landscape Architect to join our experienced team in our Sydney studio at Barangaroo. You'll help deliver projects that range from sports precincts and major parks to hospitals, universities, stations and residential communities.

Ideally you'll have 4-6 years' experience, a strong track record in detailed design, construction documentation, construction administration and supervision services on significant projects. If you are looking to step up your career we're keen to hear from you.

Please email your CV, portfolio and referee details for the attention of Crosbie Lorimer to Zac Harold Administration Assistant at [zh@clouston.com.au](mailto:zh@clouston.com.au) by Monday the 26<sup>th</sup> of November 2018
