

JESSICA CRAWFORD - ASSOCIATE

Jessica is a Landscape Architect who joined the CLOUSTON Associates Darwin office early in 2009. The extensive experience Jessica has gained on projects across Northern Australia has seen her develop her skills in all areas within the practice from masterplanning, concept design through to detailed documentation and site supervision.

Previously working within the ACT, north and south east Queensland Jessica's background is in horticulture, landscape construction and maintenance. Throughout her work Jess implements sound construction knowledge and understands the challenges that can present themselves in the remote and urban environments across the top end.

Jessica has develop her skills over a range of project areas from tourist and residential developments, parks and open space master planning to educational facilities and defence force establishments. She embraces the opportunity to work with and contribute to design and consultant teams both locally and interstate to create enduring landscapes for local communities.
