

CILLA JIAO - LANDSCAPE ARCHITECT

Cilla has been responsible for the design of large scale, integrated landscape / urban designs for eight years. She has dedicated herself to diverse public landscape projects such as urban planning, roads, parks and open space design as well as many different-sized residential landscape projects. Cilla has sound experience from landscape project management, landscape concept development, master planning to detailed design and construction documentation.

Before joining CLOUSTON Associates, Cilla worked for a multidisciplinary firm on a wide range of projects in Sydney and China. Her qualifications include a Bachelor of Environmental Art Design and a Masters of Landscape Architecture. As part of the CLOUSTON Associates practice, her expertise and professional experience make her a valuable team member.
