## SARAH YOUNG - LANDSCAPE ARCHITECT

---

Sarah became part of the team at CLOUSTON Associates in January of 2021. With a Master of Architecture and three years experience in the architecture industry, she has developed the necessary skills to see design projects from concept to completion. Sarah pursued a career in Landscape Design after recognising her passions aligned with creating meaningful *outdoor* places.

Sarah is driven to deliver well thought out designs and thrives in producing clearly communicated documentation packages.

As a third generation Territorian with firm roots in Darwin, Sarah contributes to the local knowledge of the unique Top End environment and its conditions, both built and natural.
