

ISABEL PENG - LANDSCAPE ARCHITECT

Isabel joined CLOUSTON Associates in 2021 with a Bachelor of Landscape Architecture (Honours). She has been involved in a range of projects of various scales, from residential development to large strategic framework projects with a focus in public domain and urban design.

With proficient skill in QGIS, Adobe and MicroStation, Isabel executes graphic production for landscape reports. She has worked on concept design and development, construction documentation and strategic public domain frameworks. She has a particular focus on landscape analysis and mapping that reveal meaningful opportunities for every project.

Her certification in Horticulture equip her with fundamental knowledge of soil and botany and gives prioritises endemic and native species for landscapes.
