

CLOUSTON associates

JESSICA MARQUES - LANDSCAPE ARCHITECT

Jessica joined CLOUSTON associates in June of 2023 as a Landscape Architect. With a Bachelor's Degree in Architecture and Urbanism and five years of professional experience from Brazil, she has successfully contributed to numerous projects including public domain and infrastructure, working on various stages of the design process for both the public and private sectors.

Throughout her career, Jessica has been involved and focused on social urbanism, developing holistic solutions that embrace areas that are vulnerable or lacking in urban infrastructure, working side by side with the local community and taking into account the demands from different perspectives.

Jessica is now based in Darwin and her recent experience on public works and private sector developments has extended her local knowledge on the particular environment, opportunities and challenges of the Top End.
